The 60s

Revolution

Olga Acosta Multa

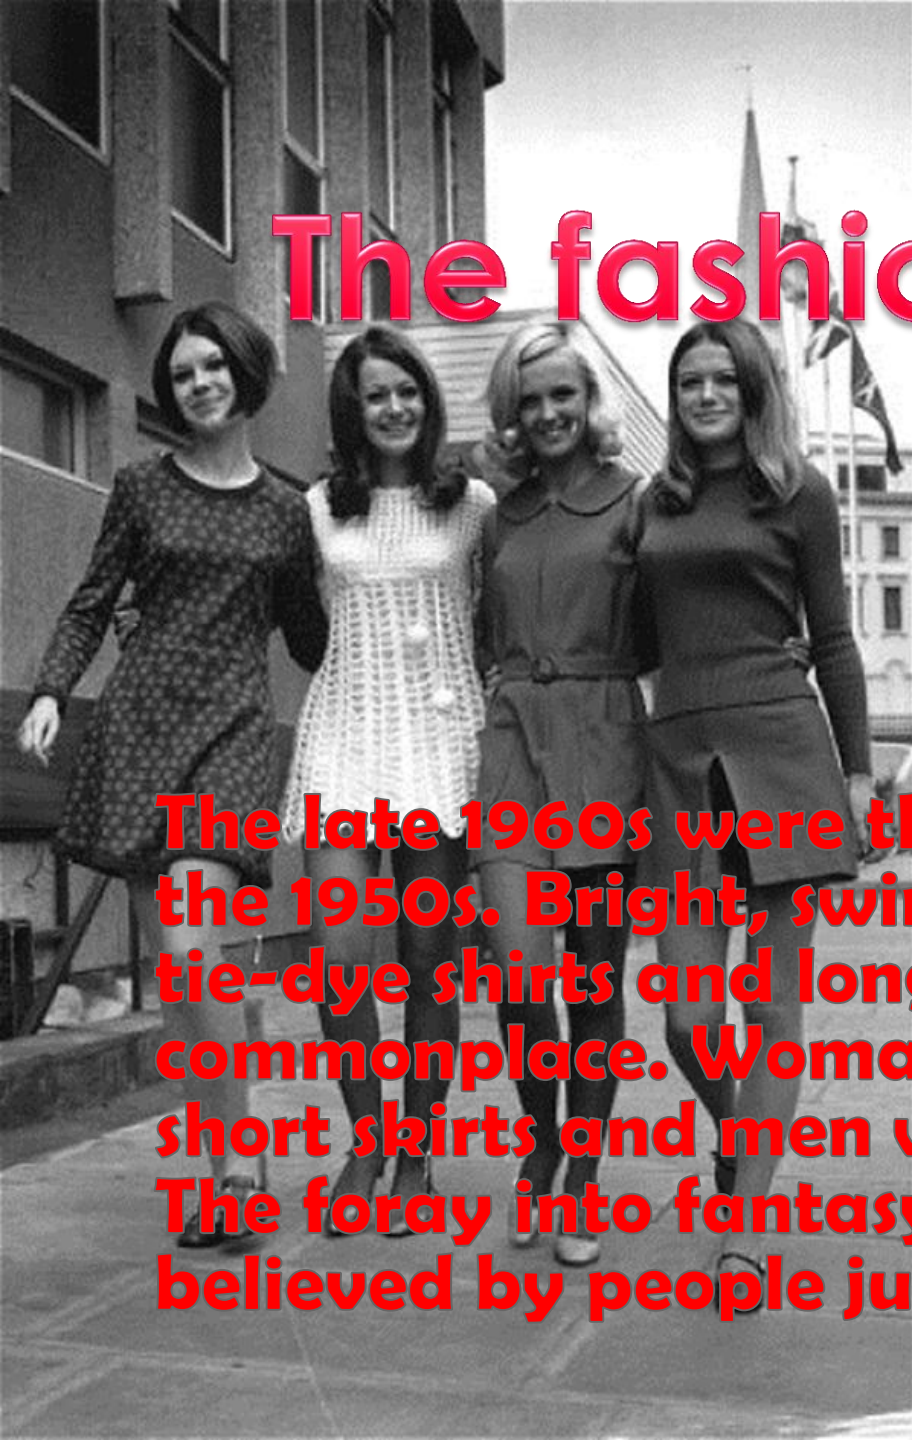

# The technology in the 60s

The 1960s were a remarkable decade of change. The first generation of the postwar America youth were discovering their cultural identity, the Vietnam War and counterculture was reshaping the political landscape, and the Beatles went from *A Hard Day's Night* to *Abbey Road*.

# The fashion in the 60s

The late 1960s were the exact opposite from the 1950s. Bright, swirling colors. Psychedelic, tie-dye shirts and long hair and beards were commonplace. Women wore unbelievably short skirts and men wore tunics and capes. The foray into fantasy would not have been believed by people just a decade earlier.

# The music in the 60s

**In North America, Europe and Oceania, the decade was particularly revolutionary in terms of popular music, as it saw the formation and evolution of rock. At the beginning of the 1960s, pop and rock and roll trends of the 1950s continued; nevertheless, the rock and roll of the decade before started to merge into a more international, eclectic variant known as rock. That music heard in this decade were The Beatles pop music.**

# Inventions

• Scott Olson invents roller blades

1970

• The floppy disk invented by Alan Shugart

1971

• Videocassette

1972

• First videogame

1973

• The ethernet (local computer network)

1974

• The artificial heart Jarvik-7

1979

# Fashion

The early 1970s fashion scene was very similar to 1969s, just a bit more flamboyant. It wouldn't be hyperbole to say that fashion revolution occurred in the 1970s. Polyester was the material of choice and bright colours were everywhere. Early 1970s fashion was a fun era.

# Music

*the*

In North America, Europe and Oceania, the decade saw the rise of disco which became one of the biggest genres of the decade.

Aside from disco, funk, smooth jazz, jazz fusion, and soul remained popular throughout the decade.

## The technology in the 80s

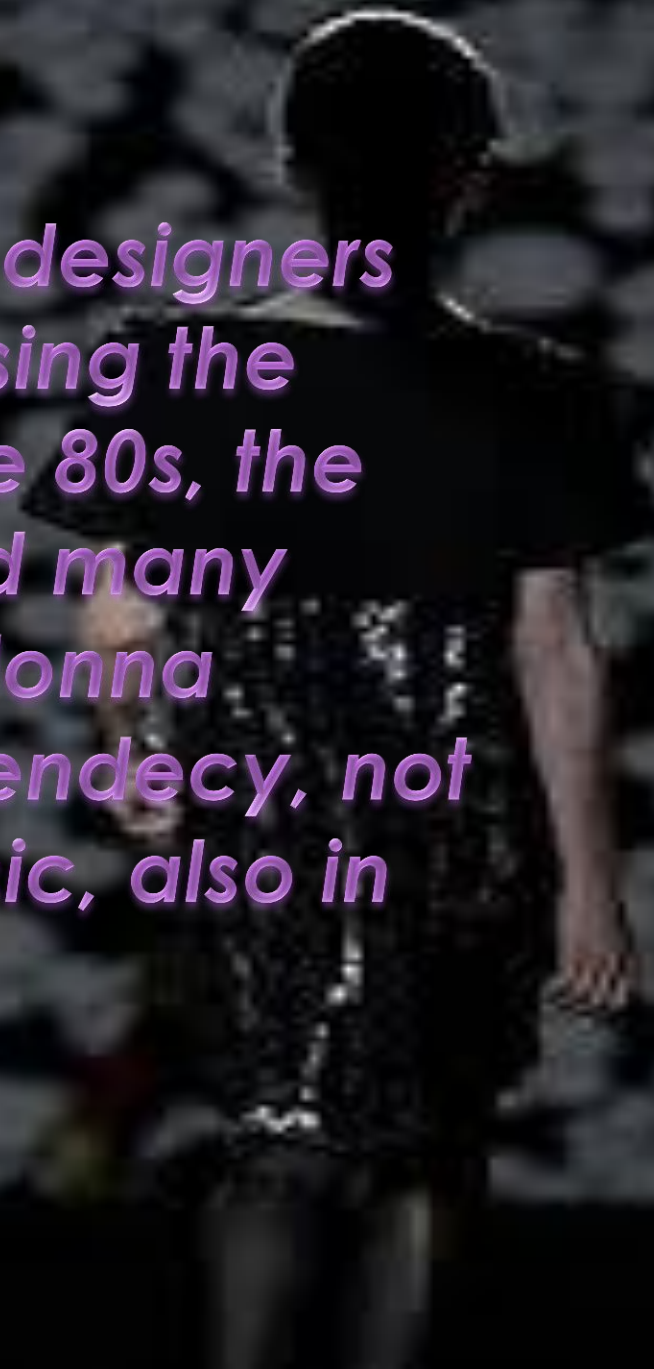

*Many of the most popular consumer products still around today were invented in the 80s for example: cell phones and home computers.*

*In the 80s, a lot of devices were invented, such as computers, CDs, cassettes, mobile phones, micro computers, video cameras and the game consoles.*

## *Fashion*

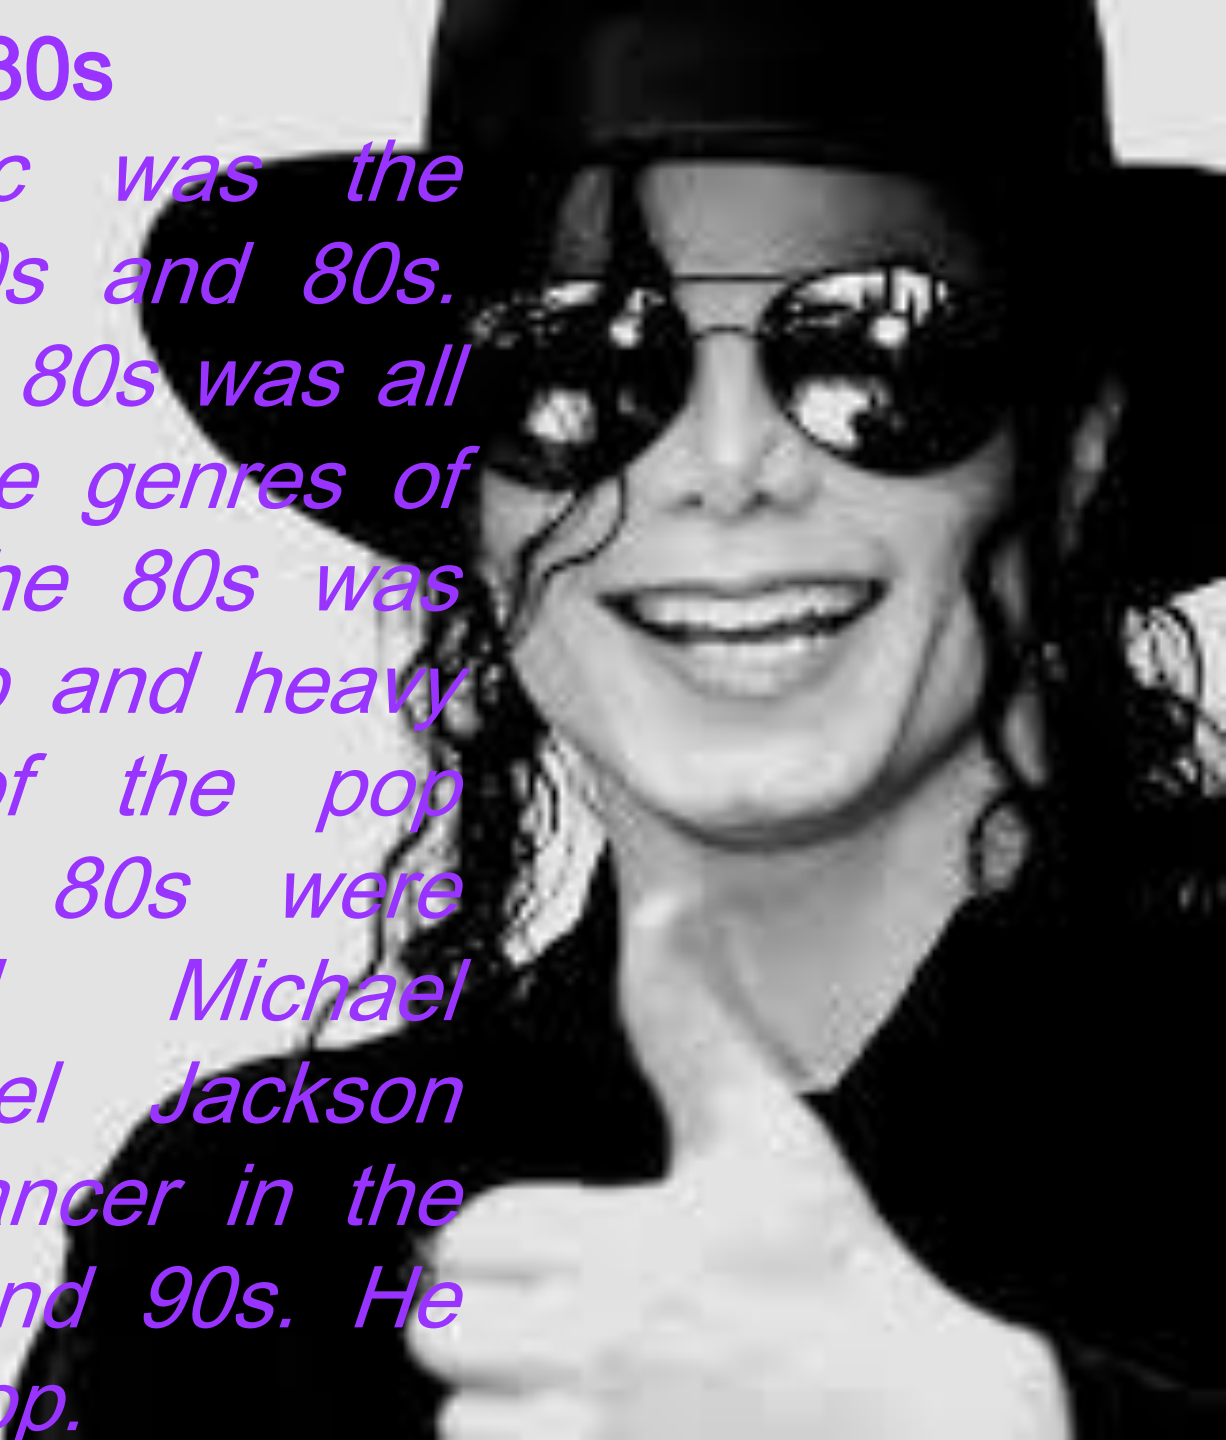

*The fashion designers tried to dressing the future. In the 80s, the clothes had many colors. Madonna marked a tendency, not only in music, also in fashion.*

## The music in the 80s

*The best music was the music of the 70s and 80s.*

*The music in the 80s was all about image. The genres of the music in the 80s was pop, rap, hip-hop and heavy metal. Some of the pop singers in the 80s were Madonna and Michael Jackson. Michael Jackson was the best dancer in the 60s, 70s, 80s and 90s. He was the king of pop.*

# Technology

The "World Wide Web" was first proposed by Sir Tim Berners Lee of the European Organization for Nuclear Research in 1989.

Originally "markup" referred to conventions in the printing world in which manuscripts to be published were "marked up" to show formatting directions for the typesetting process, but invisible for the end user, the reader.

# The fashion in the 90s

The fashion in the 1990 was the beginning of the body piercings and tattoos. They were other forms of body modification.

This brought back the anti-conformist approach to fashion, leading to the casual chic look. This included t-shirts, jeans, hoodies, and trainers, a trend which continues into the 2000s.

Heart Beats

# Music

The 1990s popular music saw the continuation of teen pop and dance

pop trends which had emerged in the 1970s and 1980s. Furthermore, hip hop

grew and continued to be successful in the decade.

The most popular groups at the time were: Spice Girls, Madonna, Pet Shop

Boys, Backstreet Boys...
